Vessel Name: Triple "A" Getaway
Model: 38' Donzi Center Consol • 2009
Marina Pez Vela • Dry Dock

Triple "A" Getaway is a center console model cuddy cabin sport fisher built in Washington, North Carolina in the year 2009. She is powered by triple *Mercury* AMS 300 HP, 4 stroke marine outboard engines that have a reported 300 hours of service with Gateway Monitoring System.

Hull material: FRP (fiber glass)
Mechanical Propulsion: Yes
Gross tonnage: 7GRT • Net tonnage: 7NRT
Length: 38.0 • Breadth: 9.3 • Depth: 3.0

Principle Dimensions

Length: 38' • Beam: 9'5" • Draft: 3'0" • Dry Weight: 10,200 lbs.

Tankage

Triple "A" Getaway carries a 318 gallons of fuel in one aluminum tank which is located under the cockpit decks. She carries 28 gallons of fresh water in one plastic tank located under the mid-deck. There is a 10 gallon waste holding tank located starboard side under the console.

Decks & Equipment

The white fiberglass non-skid foredeck is protected by an aluminum railing. Starting all the ways forward is a fiber glass anchor pulpit with a stainless steel chute. Seen stowed in this chute is a stainless steel 25lb Delta anchor shackled to approximately 200' of 6mm stainless steel chain. On either side of the anchor pulpit are 9" stainless steel bow cleats followed by a *Lewmar* anchor windlass with a horizontal gypsy and an anchor chain locker. Located in the side decks is a fuel fill cap and an 8" pop up stainless steel beam cleat to port and an 8" stainless steel pop up beam cleat to starboard. A waste and water cap are found on either side of the helm console.

Cockpit

The white fiber glass non-skid cockpit decks are protected on three sides by white fiberglass bulwarks. There is a transom door starboard side. The 9" Stainless steel popup stern cleats are in the aft corners of the hull. The 125volt 30amp shore power receptacle and the salt water wash down fitting are located in the aft starboard corner of the cockpit. A flush deck fish box is found on either side of the cockpit decks. Seen flush mounted into covering boards around the cockpit are (4) stainless steel rod holders. A live well is flush mounted port side into the transom covering boards.

A fold out bench seat with rocket launcher is centerline of the transom. A flush deck hatch forward of the bench seat gives access to the machinery compartment. The following equipment are found in this compartment:

- (2) *Mercury* Trim Tab motors
- (1) *Mercury* Marine plant 22 power steering pump
- *Marinco* Charge Pro 30 amp battery charger
- (3) *Optima* D31M, 900cca starting batteries
- *Dometic* SeaLand waste macerator pump
- *Shurflo* salt water wash down pump*
- *Rule* 1600 gph Tournament live well pump
- (3) *Parker* fuel filter / water separator , #63227
- (2) *Air Mar* B175H, 130 / 210 kHz, 20 degree tilt, depth sounder transducers

Helm Station

The helm station is located in the center console and is protected over head by a fiber glass hard top and on three sides by isinglass curtains. The following equipment is at this helm station.

- *Ritchie* 4 ½" compass
- 13 ½" stainless steel steering wheel / *Mercury* steering pump
- *Mercury* engine controls
- *Mercury* engine instrumentation
- *Lewmar* windlass control
- (2) *Garmin* 14" monitors displaying 5212 GPS map, radar, depth sounder and FLIR night camera
- (2) *Icom* IC-M412 VHF radio
- Trim tab controls
- Engine tilt control
- Aft hatch control
- *GoLight* search light control
- *FLIR* night vision camera, model TS-350, RF00617
- Manufacturers switch panel; bilge pumps, navigation/anchor lights, helm lights, flood lights, dash lights, T top lights, fresh water pump, salt water pump, live well pump, upper electronics main, machinery room lights, fish box
- Battery selector switches
- DC Circuit Breakers: Helm DC Main, 12 Volt Toilet, Port K-Plane, Cabin Lights, Trim Tabs, Stbd K-Plane, Stereo Power, Electronics Power, Forward Bilge Pump, Stereo Memory, High Bilge Auto, Aft Bilge Auto, Windlass, Spot light, Sump Pump
- *Dual Pro* Battery Status Indicator

Hard Top

- *GoLight* search light
- (1) *Garmin* GPS antenna
- (2) Cockpit flood lights
- (1) Forward flood light
- (2) *Shakespeare* 5101 VHF antennas
- Anchor light
- (2) *Taco* tele- outriggers
- *FLIR* Infrared night vision camera
- *Garmin* 18X HD Marine Radar Scanner, M/N M3A0NR00
- Forward and aft electrically actuated sun awnings

Inside the Console

- *Dometic* SeaLand marine toilet
- Fiber glass sink with spritzer
- *Xantrex* Pro inverter
- *Garmin* network radar control box
- *Garmin* network sounder
- *JL* music amplifier
- *Fusion* MS-AV 7001 CD player

Bilge Pumps

- Aft – (1) *Rule* 2000 gph pumps with automatic float switch
- (1) *Rule* 1500 gph pump with automatic float switch and high water alarm
- Fwd – (1) *Rule* 2000 gph pump with automatic float switch

Fishing equipment

- (4) stainless steel flush mounted rod holders located in the covering boards
- (5) stainless steel holders flush mounted into the rocket launcher
- (4) Aluminum rod holders attached to the aft end of the "T" top
- Live well
- *Taco* Tele- aluminum outriggers
